

The Ticketpro Dome supports Mother of Peace for Mandela Day

Ticketpro Dome will be supporting Mother of Peace as part of the nationwide activities around Mandela Day, which was held on 18 July. Mother of Peace is based in Northriding and is a community non-profit organization, dedicated to caring for children affected/infected by the AIDS virus.

The Ticketpro Dome has supported Mother of Peace for many years providing free maintenance and repairs at the home in Northriding. During the past year, the team have been unable to support them due to Covid-19 restrictions, so we have started a Mandela Month campaign to appeal to our community to donate items they so desperately need to keep the organisation running.

Valerie Barbeito from Mother of Peace Northriding says, "In today's economic times, we are finding it more and more difficult to keep supplying the necessary food and other essentials for the children. We have 27 children living with us and 12 children receive Social Grants per month and the cost per child per month is R2850. As you can see this is a major shortfall and friends and family pick up a large amount of that but each month brings major financial worries".

Cynthia Penprase, portfolio director at The Ticketpro Dome asks, "We appeal to our community and our business partners to please assist us and support the drive to collect items for the home. **The Ticketpro Dome will provide a collection box at Entrance 5 (Management Offices) which will be the drop off zone.** Our team will sanitise all donations and drop off what is collected by 31 July".

We would like to take this opportunity to thank radio station Star FM. This new community station is youth driven and plays "The Best in Local Music, and More". With a stellar line up you can tune into the station on 91.9FM.
